# LIFE CLEAN

## OFFICE

### How to apply

1. Open the bottle and write bottle opening date.

2. Let LifeClean work for 2 minutes. Rinse / wipe if necessary, follow always the local guidelines.

**Obs!** Dirty surfaces should always be cleaned before applying LifeClean Disinfectant.

**Tips!** Place the tool in a container with LifeClean. If the tool does not can be soaked with LifeClean, apply LifeClean directly to tool.

For information on personal management, sustainability and material compatibility, see current safety data sheet.

Opened bottle durable for 4 weeks and one unopened bottle durable for 9 months.

**NOTE!** Rinse steel / metal after contact time to avoid discoloration. When disinfecting electronic equipment, LifeClean should be applied with a cloth.
